**Mar 2026**

# The UK Online Market Overview Mar 2026

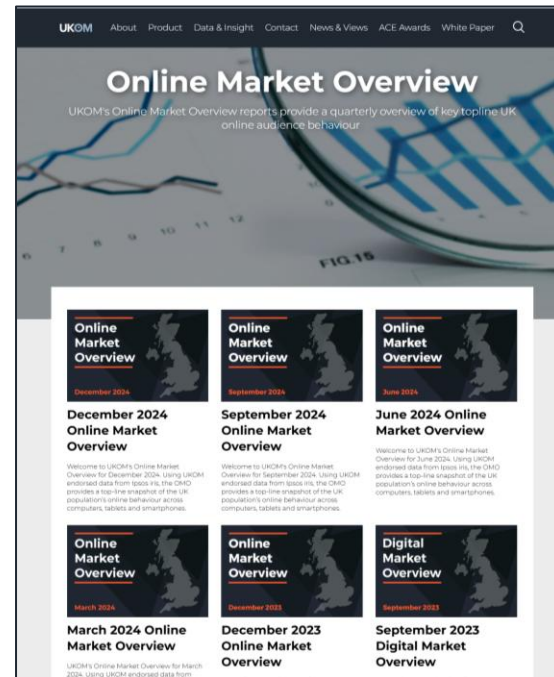

## Overview

- This Online Market Overview focuses on the UK online audience on PC/laptop, tablet and smartphone in Mar 2026. The online measurement service Ipsos iris launched in 2021 and UKOM endorses the data for PC, tablet and smartphone
- Consolidated in one PDF, this is a starting point to learn more about the online audiences of companies in the headlines as well as a deep dive into the top online companies and brands in the UK

## Methodology Updates

- New Universe: The new total internet population 15+ was updated in Oct 2025 to bring it in line with the latest PAMCo survey estimates.
- Yahoo and MSN distributed content was integrated into Ipsos iris from April 2025 under Publisher Organisations.

# Contents

The UKOM logo is a white circle containing the text 'UKOM' in a bold, sans-serif font. The background of the slide features a dark grey, high-angle view of several electronic devices: a laptop on the right, a tablet in the bottom center, and a smartphone in the bottom right corner. The devices are arranged in a way that suggests a modern, digital environment.

# Methodology

## A hybrid measurement solution combining a single-source panel with site-centric measurement

Ipsos iris is the measurement service of audiences of online content and ad campaigns and UKOM endorses the data within covering content on PC, tablet and smartphone. It uses a hybrid methodology combining metered data from a core 10,000 single-source panel with census site-centric measurement. The diagram below summarises the inputs and processes involved in the production of Ipsos iris audience data.

More detail on the methodology can be find at: [ukom.uk.net/ipsos-iris-overview.php](http://ukom.uk.net/ipsos-iris-overview.php)

# About UKOM

**UKOM's objective is to set and oversee the delivery of a credible industry standard for digital audience measurement. That means quantifying audiences in terms of people, not browsers or machines.**

UKOM's governance structure involves all sides of the industry, to ensure that Ipsos iris services meet our collective needs fully and fairly.

The whole UK media industry is involved in setting and overseeing UKOM standards through its Technical and Commercial Committees, and the UKOM Board.

UKOM and Ipsos work to an agreed process for product approval, from agreeing concepts, to approved data publication, and continuous assessment.

**Find out more at:**

[www.ukom.uk.net/](http://www.ukom.uk.net/)

# About Ipsos

**Ipsos measure audiences of media content in more than 70 countries, and the company is at the forefront of the latest techniques and methodologies required to measure more platforms, more quickly.**

In the UK, Ipsos have developed the world's first large scale, singlesource, multi-platform, passive measurement panel and work across the industry with partners such as: BARB, RAJAR, PAMCo, IPA Touchpoints, and Route.

In 2021, Ipsos iris became UKOM's endorsed solution for online audience measurement data. The solution is built for the needs of the industry and allows clients to: reassert their value proposition, have greater differentiation, enable ROI for clients, and give you a trusted independent foundation to make evidence-based decisions for their digital growth.
